## RISE to Action Against Pollution Activity Book

A project of RISE St. James in partnership with The Story of Stuff Project created in honor of Black History Month, February 2023. The art is inspired by the video "Sharon Lavigne's Story of RISE St. James" in The World We Need video series. Watch this video at [bit.ly/sharonstjames](https://bit.ly/sharonstjames)

**Coloring Activity:**  
Draw a Garden.  
If you grew a garden,  
what would you plant  
in the field below?

Let me tell you the story of our town...  
When I was a little girl, we grew gardens.  
We could eat the fish from the river. We  
would play outside all day and there never  
was a smell. We had a healthy **community**.

**Coloring Activity:**  
**Protest Sign.**  
Draw a picture or  
write what you  
believe in on the  
sign below.

We use our voice. We stand up for  
our community by taking **action**.  
You are never too young to come  
together and make **change**.  
With **faith**, anything is possible!

First, we *pray*, which gives us strength, courage, and connection to God.  
Then, we reach out to our family and friends to *organize* a meeting.  
We make a plan *together* to stop the pollution.

One day the big *industries* came into our town.  
Then we noticed a smell and strange dust in the air.  
The smell made people feel sick.

Now our plants will not grow anymore. When we eat the fish from the river, people feel sick. Our air and water is *polluted* now.

**Coloring Activity:**  
River Life.  
Draw some fish in the river above.

Grandma I love our community. What can we do to stop the smell?
