

# A Garden For Change

## Activity Book

A project of RISE St. James in partnership with The Story of Stuff Project created in honor of Black History Month, February 2024. The art is inspired by the video "Sharon Lavigne's Story of RISE St. James" in The World We Need video series. Watch this video at [bit.ly/sharonstjames](https://bit.ly/sharonstjames)

Let's walk into  
the garden.  
Let's taste  
the fruits.

Grandma, why do  
the lemons have  
brown spots?

It's because  
the soil is  
polluted.

How can we eat from a garden  
that is being polluted?

We have to find ways to make a garden.  
We must cover the plants.  
We have to make our own greenhouse.

Until we make our own garden,  
do not eat from these trees.

Why is the grass yellow instead of green?

The grass is yellow because of the pollution.

That's not right,  
Grandma.  
What can we do  
about this?

We have to  
find a solution.

While you're in school, learn about the environment and the pollution.

We learned a lot  
about the environment  
in school!

I want to be a scientist  
when I grow up.

Grandma, we're going to  
have a clean garden  
and healthy foods when  
I grow up.
